

PENNY KRISTIAN

COMPAIRED EXTENSION TECHNIQUES

<p><i>Non Sewn Beaded Weft</i></p> <ul style="list-style-type: none">• Most gentle weft technique, very flat, least noticed weft technique• Great for natural to thick hair• Weft extensions are thicker than individual extensions• Must tighten every 4-6 weeks• Can be cut in a ponytail but requires an “end check” to make sure no tracks are showing	<p><i>Individual keratin shrink links</i></p> <ul style="list-style-type: none">• Stay intact longer than individual Micro Beads• Great for fine natural hair• Hair runs on the finer side, so clients with thicker hair should purchase more strands• Can't be tightened• Can be easily put up into a ponytail with little to no extensions showing
<p><i>Clip-in-Weft</i></p> <ul style="list-style-type: none">• Great for those who want versatility• Since you don't sleep in the hair or shower with the hair, hair usually lasts a while, therefore works out cheaper• Great for younger clients, also good beginner technique• Can be put in a ponytail but requires an “end check” to make sure no tracks are showing• Can be put in and removed at your own discretion.	<p><i>Individual Micro Beads</i></p> <ul style="list-style-type: none">• Great technique if you are looking to avoid glue.• Great for fine – normal hair• Hair runs on the same finer side, so clients with thicker hair should purchase more strand.• Can be tightened.• Can be easily put up in a ponytail with little to no extensions showing.• Will come out easier than individual keratin shrink links therefore recommended for clients who are gentle with their hair
